YOUR RESEARCH JOURNEY STARTS HERE

DON'T JUST STUDY

Present. Connect. Lead.

ACM CSPR is Rowan's premier student-run research series — where undergrads, grad students, and faculty come together every week to share ideas, publish work, and grow as researchers.

STEP INTO THE SPOTLIGHT

Present once. Attend 8 more talks. Graduate the semester as a certified **Research Ambassador** — with an official certificate recognizing your research engagement.

EARN YOUR CERTIFICATE

WHAT YOU'LL GET

Research Ambassador Certificate

Earn a recognized credential that proves your commitment to research culture — great for grad school apps & resumes.

Real Research Network

Build genuine connections with faculty, PhD students, and peers who are actively publishing and doing research.

Stage Time & Visibility

Practice presenting your ideas in front of a live, supportive audience — a skill that sets you apart in any career.

Hands-On Workshops

Master data analysis, machine learning tools, and research methods through practical, skill-building sessions.

Paper Deep-Dives

Learn to read, critique, and discuss real papers from top CS venues — building your research intuition week by week.

Launch Your Research

Got an idea or project? Get feedback from faculty and peers who can help you shape it into something publishable.

YOUR PATH TO AMBASSADOR

RESEARCH AMBASSADOR PROGRAM

Complete both requirements in one semester to earn your certificate

1. **Show Up** — Come to your first CSPR talk — no prep needed
2. **Present Once** — Share your project, idea, or a paper you love
3. **Attend 8 Talks** — Grow by listening to peers & faculty research
4. **Graduate as Ambassador** — Receive your official certificate at semester end

WHY IT MATTERS

Boost Your Resume

The Ambassador certificate is a tangible credential employers and grad schools notice.

Find a Research Mentor

Weekly talks connect you directly with faculty who are looking for motivated students.

Build Confidence

Presenting in a safe, encouraging space makes every future talk — job, interview, defense — feel easier.

Stay Ahead of the Field

Exposure to cutting-edge CS research every week keeps you sharp and inspired.
